8. Tabiona Bridge Repairs

Contact: udotregion3@utah.gov

9. S.R. 45; Road Repair (MP 5)

Contact: 855-740-8740;
udotregion3@utah.gov

2016 CONSTRUCTION INFORMATION

1. U.S. 40; East of Jensen (MP 158-169)

Overview: This project is removing and replacing asphalt on approximately 10 miles of U.S. 40 east of Jensen. It will also apply microsurfacing once the new asphalt has been placed. The road will be reduced to one lane with a flagger to direct traffic through the work zone. Drivers should expect delays up to 15 minutes.

Timeline: May through July 2016

2. U.S. 40; Wasatch/Duchesne Co. Line to Jct. SR-208 (MP 58-69)

Overview: UDOT will microsurface U.S. 40 for approximately 10 miles in western Duchesne County. This project will also install new guardrail and right-of-way fencing. Lane reductions will be in place, and drivers should expect delays as construction is completed.

Timeline: July through August 2016

3. S.R. 45; Glen Bench Rd. to 6000 S. near Vernal (MP 19-37)

Overview: Crews are removing and replacing asphalt on approximately 18 miles of S.R. 45 south of Naples. This project will also apply microsurfacing on top of the new asphalt and perform maintenance work on the bridge over the Green River. Lane reductions will be in place, and drivers should expect delays up to 15 minutes.

Timeline: May through August 2016

4. U.S. 191; Red Cloud Loop to Uintah/Daggett County Line (MP 372-379)

Overview: UDOT will remove and replace asphalt and apply a chip seal layer along approximately seven miles of U.S. 191. The work will require one-way traffic with flagging operations and will take place during daytime hours.

Timeline: June through July 2016

5. U.S. 191; Stauffer Chemical to Red Cloud Loop (MP 363-372)

Overview: This project involves applying a chip seal layer to the pavement along a nine-mile segment of U.S. 191. The work will require one-way traffic with flagging operations and will take place during daytime hours.

Timeline: July through August 2016

6. Wasatch and Duchesne County Bridge Sealing (S.R. 35, MP 32; U.S. 40, MP 97 & 58)

Overview: UDOT will repair bridge deck pavement and apply a polymer sealant to bridge decks and parapets at three locations on S.R. 35 and U.S. 40. Lane restrictions will be in place 24 hours a day during construction, and traffic will be controlled by flaggers.

Timeline: July through August 2016

7. U.S. 40; Intersection Improvements 2000 West (MP 111.5)

Overview: UDOT will widen U.S. 40 near 2000 West, which will include adding an additional westbound lane between 2000 West and Pole Line Road. Lane reductions will be in place, and drivers should expect delays as construction is completed.

Timeline: August through September 2016

8. Tabiona Bridge Repairs

Overview: Crews will reconstruct bridges over the Duchesne River near Tabiona on non-UDOT roads: Cobblestone Road, and 39000 West. Drivers should expect long-term road closures and detours as the work is completed.

Timeline: September 2016 through spring 2017

9. S.R. 45; Road Repair (MP 5)

Overview: UDOT will construct a new bridge over an area of unstable soil near MP 5, north of Bonanza. S.R. 45 will continue to be closed until the bridge is completed. A detour route is in place on Little Bonanza Road.

Timeline: fall 2016
